SUMMARY

Software developer with expertise in developing web applications. Proven history of utilizing best coding practices to create high performing applications. Seeking a position as a software developer intern to utilize my technical knowledge and coding skills for the benefit of the organization.

PROJECTS

Portfolio Website
October 2023 - Present
- Designed and built a website using ReactJS. It includes HTML and JavaScript. The goal is to professionally present my competence and attract potential possibilities.
- It utilizes React to create a visually appealing home page with a profile picture and an "About Me" section highlighting my background, skills, and interests.

To-Do-List
June 2023 - August 2023
- Developed a visually appealing and responsive To-Do-List Website using HTML, CSS, and JavaScript.
- Users can add tasks, edit the tasks, delete as well as mark them as completed or incomplete.
- To ensure that the data is saved even if the user closes the browser, it makes advantage of local storage.

Elevator Project
October 2022 - November 2022
- Performs basic operations of elevator(single elevator).
- Prioritizes particular floor at which person wants to get down.
- Used concepts of data structures like priority Queues and Linked List , and implemented using Java.

EDUCATION

B.E Computer Science and Engineering
Chaitanya Bharathi Institute of Technology · Gandipet, Hyderabad · 2025 · 9.13

CERTIFICATIONS

Java Fundamentals
ORACLE ACADEMY · 2023
